Chapter 4: Forces in One-Dimension - Mr. Dettmering's ...
Explore the forces at work when you try to push a filing cabinet. Create an applied force and see the resulting friction force and total force acting on the cabinet. Charts show the forces, position, velocity, and acceleration vs. time. View a Free Body Diagram of all the forces (including gravitational and normal forces).

Forces in 1 Dimension - Force | Position | Velocity - PhET ...
The forces on the book are downward force of gravity due to the mass of Earth and the upward force of the hand. The force of the book on Earth and the force of the book on the hand are the other halves of the interaction pairs. 35. Force Lower the book from problem 34 at increasing speed.

CHAPTER 4 Forces in One Dimension - Mr. Nguyen's Website
force affects velocity. Think About This Any time an object stops moving, starts moving, or changes direc-tion, it does so because a net force is acting on it. In this photo-graph, the net force is the result of an interaction between the head of one soccer player and the soccer ball. Key Terms force, p. 88 free-body diagram, p. 89 net force, p. 92

Section/Objectives Standards Lab and Demo Planning
Vectors revisited Let’s begin by reviewing force vectors in one dimension. Consider the case in Figure 1 in which you and a friend both push on a table together. Suppose that you each exert a 40-N force to the right. The sum of the forces is 80 N to the right, which is what you probably expected.
