In the simplest case, a switch has two conductive pieces, often metal, called contacts, connected to an external circuit, that touch to complete (make) the circuit, and separate to open (break) the circuit. The contact material is chosen for its resistance to corrosion, because most metals form insulating oxides that would prevent the switch from working.

Wanker, literally "one who wanks (masturbates)", is a general insult. It is a pejorative term of English origin common in Britain and other parts of the English-speaking world (mainly Commonwealth nations), including Ireland, Australia and New Zealand. It initially referred to an "onanist" and is synonymous with the word tosser.
