WebAssign - Functions Modeling Change: A Preparation for ...

Modeling with Functions. Relate the domain of a function to its graph and, where applicable, to the quantitative relationship it describes. For example, if the function $h(n)$ gives the number of person-hours it takes to assemble n engines in a factory, then the positive integers would be an appropriate domain for the function.

Modeling with Functions - New Visions Math Curriculum

Break Even Analysis in economics, financial modeling, and cost accounting refers to the point in which total cost and total revenue are equal. It is used to determine the number of units or revenue needed to cover total costs (fixed & variable costs)
