Ronald Malfi's Floating Staircase was nominated for a 2012 Bram Stoker Award in the Best Novel category and for good reason. Ghost stories can be hard to pull off (I mean, they've all been told, right?). But somehow, Malfi manages to infuse his story with a tension and air of horror that is all too often missing in lesser novels.

Ronald Malfi's 'Floating Staircase' is a case in point, a consummate example of the 'ghost story' archetype given a rigorous and gratifying reorganization. A ghostly tale with a vibrant heart, an allegory with a clearly realized purpose and a novel that stubbornly refuses to leave the memory long after the tale is over.

Floating Staircase is the second Ronald Malfi book that I've tackled. The first was The Night Parade, and it never managed to catch my attention. I was bit wary going into this book, but the synopsis looked way too interesting. Now, I don't think it's a stand-out book. I won't sit here and rave about how great a writer Malfi is.

So says Travis Glasgow, the protagonist of Floating Staircase, Ronald Malfi's 10th novel. And above all else, this novel is authentically honest writing. The characters are fully fleshed-out, the dialogue is realistic, and the plot, though speculative in nature, is psychologically plausible.

Just finished reading Ronald Malfi's excellent FLOATING STAIRCASE. Seriously one of the best in this "ghost novel marathon" that I am doing. What makes Malfi's novel stand out is how believable the plot line is. Malfi writes in a first person format and I have to tell you, I often felt it was a true story...that is how real he makes it.
