The MIME types you mention are the two Content-Type headers for HTTP POST requests that user-agents (browsers) must support. The purpose of both of those types of requests is to send a list of name/value pairs to the server. Depending on the type and amount of data being transmitted, one of the methods will be more efficient than the other.

For inventory statistics, go to the Pending Employment-Based I-485 Inventory page.. Q: Why is the wait so long for my employment-based green card? A: A visa must be available before a person can

obtain an employment-based green card. Because more people want a green card than there are visas available, not everyone who wants a green card can get one immediately.
