Fructose it seems can induce ketogenesis and if we accept that ketones are an indication of hypoxia and we consider the implications of chronic hypoxia and that it precipitates all disease, all the sudden we have a very plausible explanation for the association of fructose with different disease states.

Exploring inconvenient paradoxes in ... - Edward Edmonds

Peer assessment is an educational activity in which students judge the performance of their peers and it can take different forms depending on the characteristics of its implementation, the learners and the learning context. Peer assessment can take different forms ranging from summative purposes (e.g., peer grading, peer evaluation) to formative purposes (e.g., peer feedback).
