Exercise Solution Of Introduction To

If exercises depend on code in a section of R for Data Science it is either provided before the exercises or within the exercise solution. If a package is used infrequently in solutions it may not be loaded, and functions using it will be called using the package name followed by two colons, as in `dplyr::mutate()` (see the R for Data Science Introduction).

1 Introduction | R for Data Science: Exercise Solutions

Solutions to the exercises in "R for Data Science" by Garrett Golemund and Hadley Wickham.

9 Introduction | R for Data Science: Exercise Solutions

Exercise 1.1. According to the information in the question the polling was conducted among 500 registered voters. The 500 registered voters corresponds to the sample. The percentage, among all registered voters of the given party, of those that prefer a male candidate is a parameter. This quantity is a characteristic of the population.
