A(n) \_\_\_\_ property describes the behavior of a substance without reference to any other substance. 2. A(n) \_\_\_\_ property describes the behavior of a substance when it reacts or combines with another substance.

## **Chapter 4 Homework on Matter - Forensic Science Homework ...**

A glass impact will shower fragments into a surprisingly large radius - up to around three metres. If a forensic investigator trained in glass recovery manages to trace an intruder and seize some clothes - if he was wearing them at the time - there's a significant chance it will have glass that would tie him to the scene in question.
