Game Frame: Using Games as a Strategy for Success

In Game Frame, Aaron Dignan outlines what games are, their components and how to create behavioral games to change your own and others behavior. He clearly states his goals for the book in the introduction: "The truth is, we are born knowing how to play, and how to invent games where none exist. I'm convinced that there is a role for games and play in reshaping the world around us ...

This game demonstrates a way to place a large number of objects on the screen, in this case to create a maze game. It uses text objects, keyboard input and tracks player lives. This is a good game to review, modify and extend, to become familiar with using text objects, tracking lives, keyboard input and updating images of objects.
