The Home Front: WW2. World War Two. Although it was the men who went off to fight the war, the people left behind at home also had a part to play in the war. The Home Front is the name given to the effect of the war on people's everyday lives.

The Home Front: WW2 - History

The home front covers the activities of the civilians in a nation at war. World War II was a total war; homeland production became even more invaluable to both the Allied and Axis powers. Life on the home front during World War II was a significant part of the war effort for all participants and had a major impact on the outcome of the war.

Home front during World War II - Wikipedia

Home front is the informal term for the civilian populace of the nation at war as an active support system of their military. Military forces depend on the home front so they can live. Civilians are traditionally uninvolved in combat, except when the fighting happened to reach their dwelling places. However, the expanded destructive capabilities of modern warfare posed an increased direct threat ...

Home front - Wikipedia

The Home Front: Fighting a Total War. Pinned down in muddy trenches for days on end, bombarded with exploding shells from a nearby enemy, and subject to violent and painful death at any moment, soldiers were plunged into what seemed like an endless struggle for survival. Civilians rarely faced the possibility of violent death,...
