Since then Mica has expanded its expertise into manufacturing Fiber-Optic and LED lighting for industries of all types.

Lighting Supplier | Mica Lighting

An optical fiber is a flexible, transparent fiber made by drawing glass or plastic to a diameter slightly thicker than that of a human hair. Optical fibers are used most often as a means to transmit light between the two ends of the fiber and find wide usage in fiber-optic communications, where they permit transmission over longer distances and at higher bandwidths (data rates) than electrical ...
