"Conflict analysis" or "interactive decision theory" might be more descriptively accurate names for the subject, but the name "game theory" seems to be here to stay. Modern game theory may be said to begin with the work of Zermelo (1913), Borel (1921), von Neumann (1928), and the great seminal book of von Neumann and Morgenstern (1944).

Conflict theory has to deal not only with the standard technology of production, but also with the technology of struggle. . . . Exchange theory and conflict theory constitute two coequal branches of economic analysis: the former based upon two-sided advantage and contract, the latter upon one-sided advantage and struggle.
