Flight interception traps or are net-like or transparent structures that impede flying insects and funnel them into collecting. Barrier traps consist of a simple vertical sheet or wall that channels insects down into collection containers. The Malaise trap, a more complex type, is a mesh tent-like trap that captures insects that tend to fly up rather than down when impeded.

Insect trap - Wikipedia

Homemade fly traps are one of the best ways to catch flies. Although, these days market is full of commercially available fly traps, but you can also come up with your own homemade versions. A homemade fly trap, when compared to a commercially available fly trap is equally effective against flies.
