There's not a hard and fast rule—it will depend on the size and variety of plant—but you could need anywhere between one to three feet of soil.

### **How to Grow a Bug-Friendly Garden Absolutely Anywhere**

Use a compact fluorescent grow light. Keep in mind that an hour of direct outdoor sun requires 2 hours of grow light exposure as an equivalent. Inside a grow room, or in situations where there is little to no sun at all, you need a minimum of 12 hours under lights. Less light than that, and you'll wonder if it's growing at all.

### **How to Grow Sage... Anywhere | Garden Culture Magazine**

Away from prying eyes, the backyard is a lush jungle. There's a magnolia with enormous leaves and a silvery Yucca rostrata, plus agaves, palms, and hundreds of potted treasures. To keep the area from looking too discombobulated, Loree and her husband installed a geometric patio of concrete pavers, kept the patio furniture simple, and left some of the grass.
