### **Force Screen Resolution Windows 8**

Windows 8 has a minimum resolution of 1024x768, unless you are running it in a VM. As such it doesn't support going into 1280x720 (since 720 < 768). Windows 7 allowed this, but the modes are missing from Windows 8. My video card and monitor support 1280x720.

### **How do I force windows 8 into 1280x720? - Super User**

I have a 13.3" (1280x800) LCD screen on my laptop, and Windows 7 only offers me 800x600 or 1024x768. 800x600 is blurry as anything, and 1024x768 is proportionally wrong for my monitor and things appear stretched horizontally.

### **Is there a way to force screen resolution?**

But I can't stand seeing it in 1024x768 resolution. My PC used to have a 1366x768 monitor so I know the driver supports it, but it doesn't give me an option to change the resolution past 1024x768 (the currently connected monitor).

### **How do you force a different screen resolution in Windows ...**

How to enable higher screen resolutions on Windows 8. The Metro interface requires a display resolution of 1024 x 768, but that is not always supported by the available display driver on this type of systems. Typically you can get this on systems with a Intel GMA 3150 or even an Intel 945 series chipset.

### **How to enable higher screen resolutions on Windows 8 ...**

Settings (Touch Friendly) Click on the start button. The Windows button is in the bottom left corner of your screen. Type in settings. An icon with a gear called PC settings will appear in your search. Click or tap on it. Select PC & devices then Display. You will see a resolution slide bar on the right-hand side..

### **How to Change the Resolution in Windows 8: 15 Steps**

How to Change the Screen Resolution on Windows 8. From the Metro Start screen, you need to enter into the main desktop, you can do this by pressing your keyboard Start button or by Clicking on the Desktop title. Once you're on the desktop, right-click on the wallpaper and click Screen resolution. From here click Resolution and select your desired resolution.

### **How to Change the Screen Resolution on Windows 8**

1 Right-click a blank part of your desktop and choose Screen Resolution. The more you slide the bar upward, the larger your computer screen grows. Unfortunately, the more information Windows 8 can pack onto your computer screen, the smaller that information appears. There's no right or wrong choice here, but choosing Windows' recommended setting makes for the clearest text and images.

### **How to Change the Screen Resolution in Windows 8 - dummies**

Change Screen Resolution in Windows 8.1: Overview. In the "Screen Resolution" screen that appears, you can select a display to adjust, if needed, from the display icons shown at the top of the screen.
