THE FAERYS VIEW Melissa Marr is one of my favorite authors, of course me loving all things Fae has nothing to do with it but The Wicked Lovely Series will forever be one of my favorite series so I had to give Faery Tales and Nightmares a try even though short story compilations aren't really my thing.

review 1: This anthology of fantasy stories about half stories set in the world' the author created in 'Wicked Lovely', using characters from that story. Some show back story, some things that happened after the last of those books, some are things that took place off stage. The other half are set in different realities, and these were the ones I really liked.

While the other stories were too short and abrupt too actually warrant a rating, the 3.5 stars are only for the detailed yet short stories ...
