windows xp - Force a custom resolution - Super User

Similarly if I have the KVM switched to the XP machine and power on, it is all good. Display properties are correct, showing the max resolution at 1440x900. I have a feeling that it is the KVM that is responsible for this, however it would be really good if there was some way I could force the resolution to 1440x900.

Force a screen resolution? - Microsoft: Windows - Tek-Tips

Need to 'force' XP to use 640X480 Screen Resolution. Discussion in 'Windows XP' started by MitchellCooley, 2007/04/21. Hey folks, I recently upgraded from Win2K to Xp Home and I have a minor problem. My wife has a game (hoyle Texan Holdem) which she likes to play but she prefers to play with a screen resolution of 640X480.

Need to 'force' XP to use 640X480 Screen Resolution ...

screen. My previous machine ran with a screen resolution of 1280x800 and everything was peachy. The new one, however, runs at 1680x1080 which makes everything tiny. Because the screen is wide there is only one resolution that actually fits everything nicely into the screen without stretching in one direction and looking terrible.

Add Different Screen Resolution | Tom's Hardware Forum

Force native resolution to Non-PnP monitor in Windows. But I cannot set it to a resolution higher than 1024 x 768! I then tested it with another monitor--a 20-inch, 1680 x 1050 Dell--which was detected successfully and did run at its native resolution. So, the problem is the monitor, not the computer or video card.

Force native resolution to Non-PnP monitor in Windows ...

Changing XP Mode screen resolution. ". To change these settings, when in the XP Mode desktop click on theTools menu and then select Settings.You will now be at the virtual pc settings screen and should click on theIntegration Features category.". Any help on how to make XP Mode more visible to my aging eyes would be appreciated.

Changing XP Mode screen resolution - Microsoft Community

Force display resolution in Windows / C++. The monitor's native resolution is 1920x1080@60hz but Windows refuses to let me set it to anything higher than 25hz interlaced, which looks absolutely terrible. I've tried all the drivers and settings suggested by extensive google searching and still nothing.

Force display resolution in Windows / C++ - Stack Overflow

This guide will take you through how to change the screen resolution in Windows XP ® operating system. Screen resolution is down to personal preference, and will depend on the size and capability of your monitor/display. The best way to find the perfect resolution to suit you and your monitor is to experiment, follow the guide below to change your screen resolution.

How to change screen resolution in Windows XP

But there's still a way of changing the resolution - the same way that's used by full-screen games. A simple program can temporarily change the resolution itself, Windows provides an API for that, and there already are a few such programs available on the internet that change the resolution on start, and restore it when they are closed.

Windows XP: prevent users from changing screen resolution ...

Widescreen monitors - changing the resolution in Windows XP. However, in trying to change the display resolution in Windows XP, I don't have the option to change the resolution to 1440 x 900. The closest I get is 1280 x 768. Is the range of values I can choose from dictated by my graphics card, or by XP? Thanks in advance for any help.....

Widescreen monitors - changing the resolution in Windows XP
If you can't use a resolution because it's not listed by Windows (like if you are using a KVM with a 16:10 ratio Monitor), follow these steps: Set the resolution manually on XP - Windows Forum - Spiceworks

Set the resolution manually on XP - Windows Forum - Spiceworks
